## Summary

---

A BS Software Developer graduate with a 3.57 GPA looking for a full time role in a software developer, dev ops, or help desk position. With 2 internships, a certification in Java 8 and experience in Java, Python and C along with the skills mentioned below. Very detailed oriented and looking forward to joining a team that allows me to use my knowledge and skills.

## Skills

---

Java, C, Python, SQL, Excel, Linux, Windows, Jenkins, Autosys, Git, AGILE, Jira, HTML, CI/CD, Freemarker, QA Testing, Batch, XML

## Experience

---

### **Clearbridge Investments | New York, New York** **Junior Java Developer Intern | 06/2020 - 08/2020**

- Collaborated with the development operations team in implementing their new Trading System gaining experience with Enterprise integration framework and java through the ESB Jboss fuse.
- Using Freemarker, developed new Interface which transforms XML messages into trading platform compatible API messages to generate the order messages and send them via message queue to the trading systems SQL database.
- Generated order messages and HTML email notifications for successful and failed flows with Freemarker.
- Wrote Junit test cases to validate the output of Freemarker templates.

### **Clearbridge Investments | New York, New York** **Junior Developer Intern | 06/2019 - 08/2019**

- Developed Automation scripts using PowerShell to setup scheduled jobs for the data transfer between Firms Vendors and Trading Applications (File Transfer, Report Generations and Data Load etc.)
- Collaborated with the development operations team using the continuous integration tool Jenkins while following source control practices to implement automation process.
- Familiar with the CI integration on the Build Process (Web application Build Processes, Application components, Automation Scripts batch deployments and Fuse Application Deployment Process using Jenkins CI).
- Performed regression testing for the company's internal (Trade Support) website to validate the system enhancements as part of the application upgrade to the new version of JBoss Application server.
- Collaborated with the QA team in writing and updating test scripts for regression testing. Created and updated testing and issue tickets in Jira in accordance with AGILE workflow.

## Certificates

---

Oracle Certified Associate, Java SE 8 Programmer
